

RED BIRCH

AACER™

RESIDENTIAL FLOORING

Red Birch

Acer's Red Birch creates a unique floor. Each board has an intriguing combination of reddish outer edges and warm amber portions. Grain patterns range from subtle swirls to highly figured flames. Red Birch typically contains more dramatic pink / red heartwood because it is sawn from fully mature trees and sustainably grown.

FEATURES AND BENEFITS

SELECT GRADE

This floor is more than 75% red with some mineral stains. This is our cleanest grade allowing only minor pin knots and mineral stains. **Average board length 39"**.

3RD GRADE (COMMON)

This floor is more than 50% red with many variations. Open knots, mineral stains, machine burns and worm holes are allowed. **Average board length 23"**.

- More durable than Southern Maple.
- Beautiful amber, red and pink tones create an elegant look.
- Ideal for residential and commercial use.

MATERIAL WARRANTY

Aacer Flooring warrants that the products have been manufactured in compliance with the grading rules of Aacer Flooring, and will be free from manufacturing defects, which are limited to improper milling or improper drying only. Manufacturing defects do not include natural wood characteristics such as mineral streaks, knots, grain variations, and normal minor differences between color samples and the color of installed floors. These are normal characteristics and are not defects.
