

# YELLOW BIRCH

AACER™

RESIDENTIAL FLOORING

## Yellow Birch

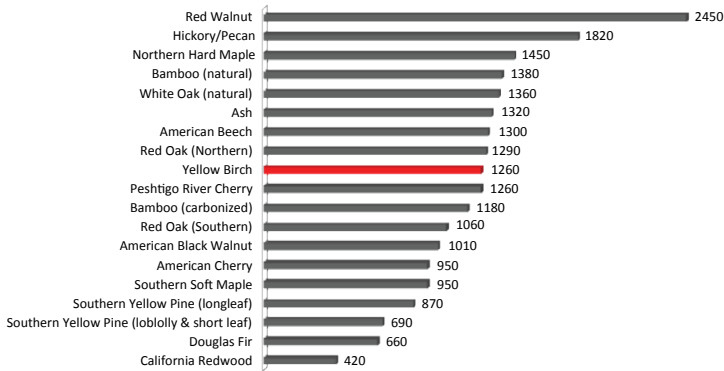

A closed-grained, even-textured cream or light brown hardwood has lustrous brown flecks and warm undertones. Yellow birch is similar to maple in grain only with more color. Birch hardwood floors come in a variety of natural finishes. Birch is sure to make any room even more appealing. The cool grains convey a traditional style when accented with the right design.

# YELLOW BIRCH

## JANKA Hardness Scale

\*2% softer than Northern Red Oak (Source: NWFA)

## Widths

• 2 1/4"

• 3 1/4"

\*Unfinished Square Edge

\*Prefinished Micro-Bevel

- Weight 2.77 lbs per sq. ft.

## FEATURES AND BENEFITS

### 2ND GRADE & BETTER

This floor is more than 50% yellow with some red heartwood. This is our cleanest grade allowing only minor pin knots. **Average board length is 33".**

### 3RD GRADE (COMMON)

This floor is more than 50% yellow with some red heartwood. Various imperfections and obvious character marks are allowed. Open knots permitted up to a dime size that do not go through the board. **Average board length is 23".**

- Plenty of color variation. Iridescent look makes it an unique choice for your home.
- Tight, closed grain with even texture.
- Occasional curly grain or wavy figure in some boards.
- Cream yellow.

### MATERIAL WARRANTY

Aacer Flooring warrants that the products have been manufactured in compliance with the grading rules of Aacer Flooring, and will be free from manufacturing defects, which are limited to improper milling or improper drying only. Manufacturing defects do not include natural wood characteristics such as mineral streaks, knots, grain variations, and normal minor differences between color samples and the color of installed floors. These are normal characteristics and are not defects.
