

AacerStop

ACCESSORY

AacerStop, a premium Class I vapor retarder, protects floors from moisture mitigation through concrete slabs and crawl spaces that can otherwise cause mold and other moisture-related problems. Ideal for use over concrete and under floating sub-floors and floors.

- Delivers life-long moisture protection
- Superior protection against jobsite abuse when compared to standard 6 and 15mil poly
- Will not deteriorate over concrete or ground
- Withstands hot and cold temperatures
- Puncture and tear resistant
- Defends against soil bacteria, chemicals and pollutants
- Meets ASTM E1745 Standards
- Use over concrete under floating sub-floors and floors
