SPORTS FLOORING

UltraFlex™ DC

UltraFlex™ DC is an anchored resilient floor system combining the best features of both designs. UltraFlex™ DC features a unique ladder sub-floor that provides high-performance play and a stable platform for the maple surface. This system selected with fully FSC components contributes the maximum obtainable LEED points available.

FIXED RESILIENT

UltraFlex™ DC

The UltraFlex™ DC system utilizes dimensional wood sub-floor which absorbs shock and reduces leg fatigue. The system also moves to accommodate changes in humidity with its special optional "Z" retainer while maintaining peak performance of the playing surface. The sub-floor design also allows for excellent under floor air flow.
