

AACER

SPORTS FLOORING

Long-Bond™

Performance, efficiency, practicality, and an excellent value. Aacer Long-Bond is a glued-down floor system that can be applied on top of any existing synthetic floor, a plywood subfloor, or even a concrete slab. Application of the Long-Bond™ floor is fast and efficient. Long-Bond™, which is constructed of hard maple wood parquet, offers the quickness, the beauty and the uniformity of playing on a wood floor surface at a price that fits the budget of any cost conscious building owner.
