AacerFlooring.com

The Aacer Flooring Advantage

Aacer Flooring is located deep in the northwoods of Wisconsin, where the winters are cold and long. It's the perfect combination for producing truly exceptional hardwood. Unparalleled quality, rich consistent color and tight grain make northern hardwoods the premium choice in hardwood flooring among homeowners, architects, designers and the building community.

Aacer is a fully integrated hardwood flooring manufacturing facility. From the selection of northern hardwoods to the drying, precision milling, hand grading and prefinishing, Aacer has control over each step of the process. Managing the entire operation under the Aacer roof, together with generations of experience, allows Aacer to deliver consistent flooring job after job, year after year.

Aacer Flooring. A high caliber manufacturer of true Northern Hardwood solid and engineered flooring in Unfinished, Prefinished and Specialty surface treatments.

Disclaimer: The color samples displayed in this literature piece serve only as a representation of color and the wood species named. Wood is a product of nature and differences in color and grain are normal. The samples are only an indication of the grade and do not include all variations that may occur.

It is the policy of Aacer Flooring to continuously improve its line of products. Therefore, Aacer Flooring reserves the right to change, modify or discontinue systems, specifications and accessories of all products at any time without notice or obligation to purchaser.
