

NORTHERN WHITE OAK

AACER™

RESIDENTIAL FLOORING

Northern White Oak

Consistent, neutral color and grain, Northern White Oak is ideal for custom staining. Due to its light sapwood and light to nutty brown heartwood color, White Oak creates a floor with a strong, clean look. The wood flooring is mostly straight grained with a medium to coarse texture and an open grain appearance.

Generally, White Oak will have more "character" than Red Oak due to the longer rays. The occasional crotches, swirls and burls in this wood works well in traditional as well as contemporary interiors. Synonymous with high quality and durability, white oak has been used for more than a century in hard wood flooring.

MATERIAL WARRANTY

Aacer Flooring warrants that the products have been manufactured in compliance with the grading rules of Aacer Flooring, and will be free from manufacturing defects, which are limited to improper milling or improper drying only. Manufacturing defects do not include natural wood characteristics such as mineral streaks, knots, grain variations, and normal minor differences between color samples and the color of installed floors. These are normal characteristics and are not defects.
