

AacerPLAY

PORTABLE FLOOR SYSTEM

The AacerPLAY Portable Floor's cutting-edge design and innovation is the result of over 3 decades of manufacturing and finishing portable floors. Our proprietary automated panel construction and CNC machining ensure unmatched precision, durability, and performance. Trusted by colleges, Division 1 NCAA schools, and tournament organizers, the AacerPLAY stands out for its exceptional quality, longevity, and ease of use, making it the top choice for teams, athletes and facility professionals.

Continuous tongue & groove for consistent assembly and flat playing surface

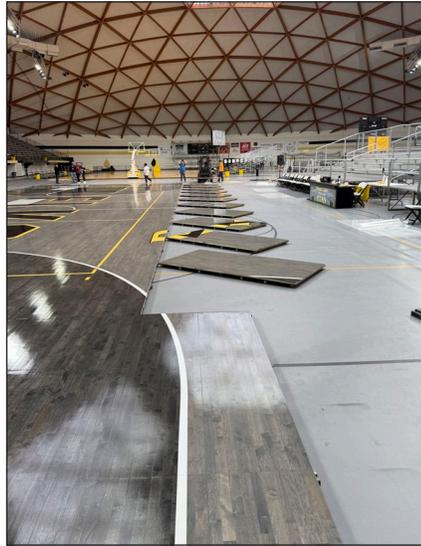

Automated panel construction and CNC milling for precise fit

Recycled rubber ECO Resilient pad

Padded and unpadded options

5-ply plywood construction for panel strength and stability

MFMA Certified Finger-jointed Maple

PRECISION PANEL INTEGRATION

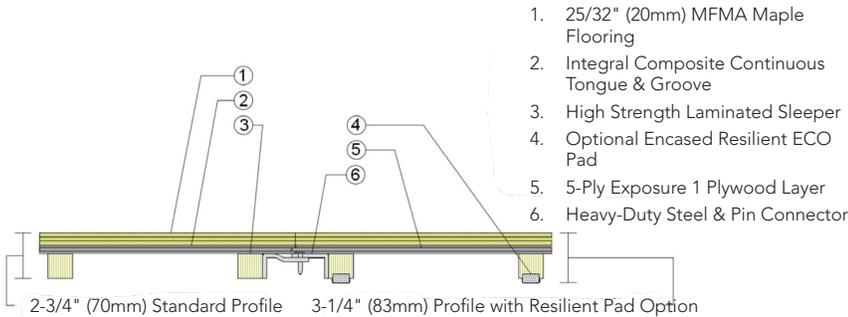

Continuous CNC machined tongue and groove composite material on all 4 sides of each panel prevents finish build up and provides for perfect panel alignment for a smooth playing surface.

HEAVY DUTY BRACKETS

Heavy duty steel brackets are securely mounted into the sleepers and subfloor panels for superior holding power. Ultra strong tapered steel assembly pins keep panels firmly in place.
