

AacerChannel™ VLP

FIXED RESILIENT SYSTEM

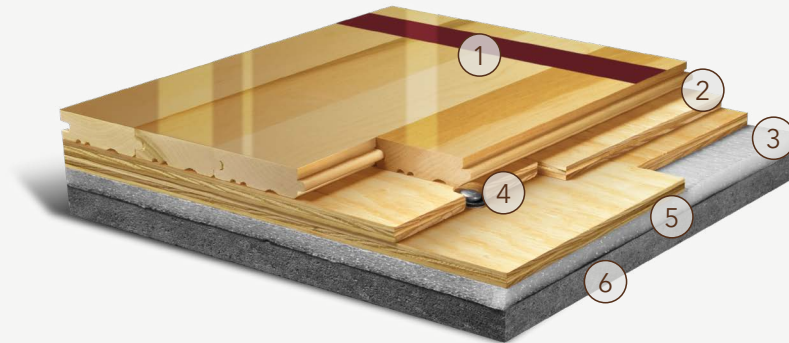

The AacerChannel™ VLP performance floor system provides the resiliency and safety of a floating floor and the stability of an anchored system. AacerChannel VLP offers a low profile which can also be considered if satisfying certain heights in retrofit projects.

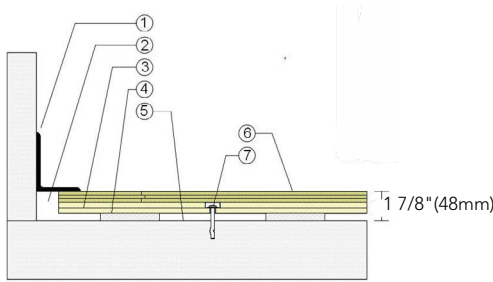

AacerChannel™ VLP

AacerChannel™ VLP is a fixed resilient sports performance floor system that features a monolithic subfloor with full flex and a full thickness APA engineered underlayment to maximize system performance. The result is a floor with increased stability, shock absorbency, energy return and low vibration.

WALL BASE

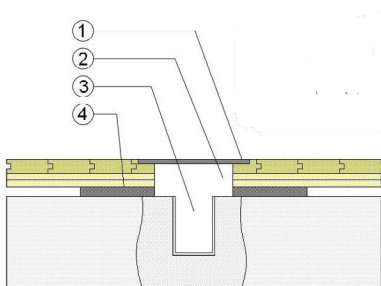

- 3" x 4" (76mm x 101mm) Vent Cove Base
- 1 1/2" (38mm) Min. Expansion Space
- AacerChannel VLP Subfloor Panel
- Resilient Foam Section
- Vapor Retarder
- 25/32" (20mm) MFMA Maple Flooring
- Collared Steel Concrete Anchor

THRESHOLD

- 1/4" (6mm) Aluminum Threshold
- 1 1/2" (38mm) Min. Expansion Space
- Solid Blocking at Doorway
- AacerChannel VLP Subfloor Panel
- 25/32" (20mm) MFMA Maple Flooring
- Resilient Foam Section
- Collared Steel Concrete Anchor

EQUIPMENT

- Floor Plate
- 1 1/2" (38mm) Min. Expansion Space Required at all Insert & Electrical Penetrations
- Concrete Floor Penetration
- Solid Blocking at Insert

Anchorage
