

AacerChannel™ VLP HC ECO

FIXED RESILIENT SYSTEM

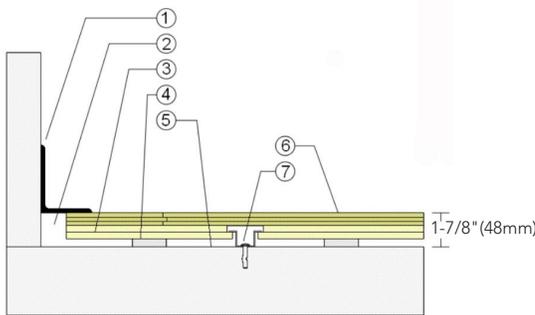

The AacerChannel™ VLP HC ECO performance floor system provides the resiliency and safety of a floating floor and the stability of an anchored system. Factory assembled panels utilize Aacer heavy-duty sectional steel channels to provide fast installation and uniform performance. AacerChannel™ VLP HC ECO is a MFMA-PUR compliant performance floor that offers a low profile which can also be considered if satisfying certain heights in retrofit projects.
