

Integrate

PORTABLE FLOOR SYSTEM

Integrate is a manufactured portable floor system. Exact panel alignment is achieved through precision CNC fabrication and machining that features four-sided integral milled composite tongue and groove. Heavy duty steel brackets and tapered steel assembly pins ensure a perfect fit every time.

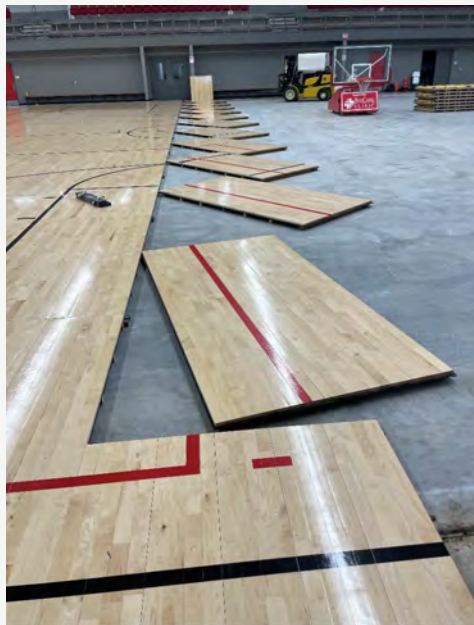

INFINITY
Wood Floors

Integrate

Integrate portable floor system is built for competitive playing. Players like Integrate for its playability, uniformity and shock absorption properties. Panels are produced using CNC technology that allows for quick, easy and precise assembly every time.

PRECISION PANEL INTEGRATION

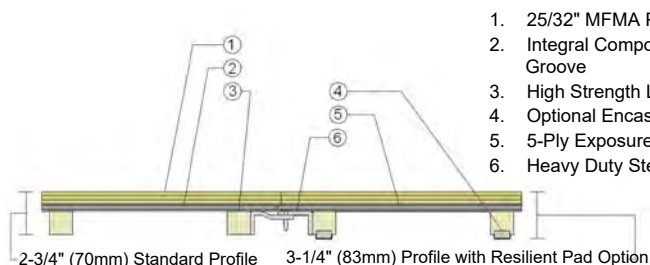

Continuous CNC machined tongue and groove composite material on all 4 sides of each panel prevents finish build up and provides for perfect panel alignment for a smooth playing surface.

HEAVY DUTY BRACKETS

Heavy duty steel brackets are securely mounted into the sleepers and subfloor panels for superior holding power. Ultra strong tapered steel assembly pins keep panels firmly in place.
